Subject: NJ legacy PFCAs in soils draft for review
Attachments: 180523 Soil Results Summary.xlsx; 180517 Legacy PFCAs in Soils.xlsx

Tom, Brittany and Tim,

For your review, please find attached analytical data for PFCAs in the soil samples that New Jersey personnel collected. In the "Summary" spreadsheet, the draft data are summarized and reported with QA checks. In the "Legacy" spreadsheet, all calculations used to generate the final draft values are shown. Quality of the results look generally very good; mean sample recovery was 99%.

Ex. 5 Deliberative Process (DP)

Tom and Brittany can coordinate on whether they review sequentially or simultaneously.

Have a great holiday weekend everyone.

Thanks,
John
